Professional Summary

Experienced UI/UX Developer with a strong background in building high-quality websites and designing user-centered interfaces using Figma. Proficient in HTML, CSS, and JavaScript, with a proven track record of creating seamless web experiences optimized for performance. Focuses on delivering polished and efficient solutions that enhance user satisfaction and overall site functionality. Developed and maintained responsive websites, ensuring a seamless user experience across various devices. Successfully designed and implemented intuitive and user-friendly interfaces using Figma to enhance both aesthetics and functionality. Contributed to optimizing web performance and usability, resulting in increased user engagement and satisfaction. Collaborates closely with cross-functional teams, consistently meeting project deadlines while delivering high-quality solutions. Previous experience at Applatus Technologies Pvt. from January 2024 to September 2024, gaining valuable experience over nine months.

Skills

- HTML5, CSS3, SCSS, Tailwind, Bootstrap, GIT, JavaScript, TypeScript , React, Storybook, Figma, Adobe Photoshop, Adobe Illustrator, Wireframing, Responsive design, Prototyping, User interface (UI) design

Work History

UI/UX Developer - (**Applatus Technology** - Indore, India)   01/2024 to 09/2024

Examcare and Education Planet - (May - Sep 2024)

- I created responsive and efficient web pages using Material-UI, Tailwind CSS, and SCSS, improving design consistency, scalability, and accessibility. Built interactive components in Storybook with TypeScript for easier development and improved the user experience for Education Planet and Educationcare across all devices.

Student App - **Examcare** - (May - Sep 2024)

- I created Figma designs for tablet and mobile, ensuring a responsive and user-friendly experience for students, parents, and teachers. Developed clear user flows to help each group easily navigate the educational app.

BehtarZindagi & Ganesh Punt - (May - July 2024)

- I converted Figma designs into dynamic, user-friendly web pages for the Behtarzindagi e-commerce platform and Ganesh Punt live casino, delivering seamless and engaging user experiences.
